TELEPHERIQUE

"Reiztherapie"

We show first a video about the desinsibility through imitation overload like TV, video,informations. The second part is a possible way to set sensitive again. We show their DIA's and try to make a therapy with pictures and music for the visitors
Our concept is to integrate the visitors.
In that case the sense of eye and ever
The most feeling that you can manipulate
With the "REIZ-THERAPIE" or "IRRITATION therapy. We try to show the people the danger of TV and manipulated informations because this can kill the sensibility and we want to test their sensibility. It's an experiment.

THE REVOLUTIONNARY ARMY OF THE INFANT JESUS

RAIJ produce a compulsive rythmical fusion of beauty and disorder. Exploring the Europe of the imagination and driven by a creative prophetic impulse, RAIJ incite an atmosphere of objective, animated enchantment.

BATCHAS AND FRIENDS

"Before getting on stage"

BATCHAS rarely appears alone on stage.Each performance discloses a different line-up,and is thus a new experience.This means for most of the concerts, some friends of mine join me on stage and the "variable geometry"side of the bands allows it to explore different sound domains, in a renewed manner every time. People often describe my music as " Dark ambient ", "Ritual"or"Hypnotic Soundscapes"...In this game of description, I prefer the words of my Ducth friends who write :"Zuiver karakteristiek geluid met hoog dynamisch bereik..."I obviously don't understand the meaning of this but it sounds great anyway

CO. CASPAR

"Transit N. VI XCVI"

Arte performa, a value-free medium of individual mold represents one's own feeling for life, the variety of disconcerting topics, raw materials, objects is without a model, without a tradition.

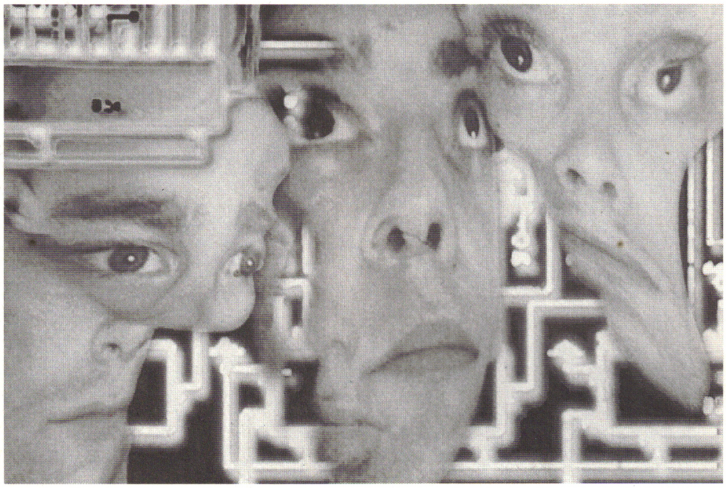
"Salt - spit - Skin - Exorcism"



O YUKI CONJUGATE + THE SONS OF SILENCE

"SPOKE" is a unique performance created by the members of O Yuki Conjugate and the Sons of Silence. It arose out of a combination over our disenchantement with what most people percieve as "ambient"music and also our love of bicycles.The Live show is a hybrid of rythms and textures created using 3 bicycles as soundsources,together with abstract sounds-capes genrerate from many sources :gramophone records, wireless radios, samples and anything we can lay our hands on. The music ranges from the Heavenly to the Hellish,from Techno to Primitive.

RAISON D'ETRE

Drop of crystal, with a thousand eyes, a hypnotic moment of trance ambient industrial atmospheres with video background.

SCHLOSS TEGAL

"Orgonon Mysterium"

Coexistence in a world of insensitivities for all those who are ineradicable to combine a potential realism, a principle, innovation and discovery to survive as true homocentrics. The energy streams are our core and marks the present possibilities yet to be achieved. All will be manipulated processed, composed and mixed on this digital terminal beach. An alchemical process of formation purification, destruction striving to create specific psy-coacoustic effect in a shroud of mystery. The paradigm is already born and waits for us to assist in the mystery of its naming, of its transmutation from potentiality to actuality.

SOLDNERGEIST

After the strongly sold debut CD "Spur 2" and the bombastic tour with In Slaughter Natives" and Deutsch Nepal in 1994, Söldnergeist will hit with obscene pleasure, the willing audience once again. They will show up with new powerful material from the forthcoming CD "Global Media Control" and a special SG Box that will be only sold at this concert.
